REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The primary reason for allowance of claims 35 and 53-60 is the inclusion of a shutter member configured and positioned to open and close a discharge opening of a developer supply container by rotation thereof, the shutter member includes a communicating portion capable of fluid communication with the discharge opening irrespective of the rotational direction of movement of the shutter member. This is found in all of claims 35 and 53-60, but not disclosed nor suggested by the prior art of record.

The primary reason for allowance of claims 61-64 is the inclusion of a shutter member configured and positioned to open and close the discharge opening of a developer supply container by rotation thereof, wherein the shutter member includes a closing portion capable of re-closing the discharging opening irrespective of the rotational direction of movement of the shutter member. This is found in all of claims 61-64, but not disclosed nor suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
